## MO-KAN TEAMSTERS PENSION FUND

12/08/2025

Dear Participant:

The Board of Trustees would like to inform you of a change reflected in an Amendment it recently adopted to the Mo-Kan Teamsters Pension Fund (the "Plan") that increased the accrual rate for individuals receiving the maximum hourly employer contribution rate for plan years beginning on or after January 1, 2025. The change is described in this notice, which serves as a summary of material modification (SMM).

### The Change and How it may Affect You

The schedule of accrual rates in the Plan reflects the accrual rates that apply to the amount of hourly employer contributions made on the participant's behalf. The accrual rates for hourly employer contributions made at the \$5.10 or higher rate on or after January 1, 2025 are being increased by 10%. Therefore, you will receive a higher benefit when your pension amount is calculated upon your retirement if the hourly employer contributions made on your behalf are at the \$5.10 or higher contribution rate. **Note:** The accrual rates that apply to hourly contributions below the \$5.10 contribution rate remain unchanged.

### Example - Normal Monthly Pension Benefit:

The monthly pension amounts before and after the 10% increase in the accrual rate are reflected below based on the following facts:

Clarence retires at age 65 on January 1, 2041 with 25 service credits earned under the Plan. He worked a total of 2,000 hours during each plan year from January 1, 2016 through December 31, 2040. He received hourly employer contributions on his behalf at \$5.10 throughout his career.

Therefore, Clarence's monthly pension benefit will be calculated in two periods prior to this increase taking effect and it will be calculated in three periods once the increase becomes applicable. Clarence's monthly pension amount would be:

<b>Before Increase:</b>	\$103 accrual rate x 8 years of service equals	\$824.00
	plus \$113.30 accrual rate x 17 years of service equals	\$1,926.10
	for a total of	<b><u>\$2,750.10</u></b>

<b>After Increase:</b>	\$103 accrual rate x 8 years of service equals	\$824.00
	plus \$113.30 accrual rate x 1 year of service equals	\$113.30
	plus \$124.63 accrual rate x 16 years of service equals	\$1,994.08
	for a total of	<b><u>\$2,931.38</u></b>

**Questions?** If you have any questions regarding this Plan change or the Pension Plan in general, please call or write the Fund Office.

Sincerely,

The Board of Trustees
